## ALCOHOL AND THE CELL<sup>a</sup>

*Editor*

EMANUEL RUBIN

---

### CONTENTS

---

Preface. <i>By EMANUEL RUBIN</i> .....	xi
----------------------------------------	----

#### Part I. Alcohol and Acetaldehyde Metabolism

Distribution and Properties of Human Alcohol Dehydrogenase Isoenzymes. <i>By TING-KAI LI and WILLIAM F. BOSRON</i> .....	1
The Microsomal Ethanol Oxidizing System and Its Interaction with Other Drugs, Carcinogens, and Vitamins. <i>By C. S. LIEBER, J. M. LASKER, J. ALDERMAN, and M. A. LEO</i> .....	11
Subcellular Localization of Acetaldehyde Oxidation in Liver. <i>By HENRY WEINER</i> .....	25
Microsomal Generation of Hydroxyl Radicals: Its Role in Microsomal Ethanol Oxidizing System (MEOS) Activity and Requirement for Iron. <i>By ARTHUR I. CEDERBAUM</i> .....	35
The Functional Implications of Acetaldehyde Binding to Cell Constituents. <i>By MICHAEL F. SORRELL and DEAN J. TUMA</i> .....	50

#### Poster Papers

<i>In-Vivo and In-Vitro Inhibition of the Low K<sub>m</sub> Aldehyde Dehydrogenase by Diethylmaleate and Phorone. By ELISA DICKER and ARTHUR I. CEDERBAUM</i> .....	63
Developmental Profile of Alcohol and Aldehyde Dehydrogenases in Long-Sleep and Short-Sleep Mice. <i>By T. N. SMOLEN, A. SMOLEN, and J. VAN DE KAMP</i> .....	66
Alcohol and Acetaldehyde Metabolism: Concluding Remarks. <i>By ESTEBAN MEZEY</i> .....	69

#### Part II. Effects of Ethanol on Biological Membranes: Physical Studies

General Anesthetic and Specific Effects of Ethanol on Acetylcholine Receptors. <i>By KEITH W. MILLER, LEONARD L. FIRESTONE, and STUART A. FORMAN</i> ..	71
------------------------------------------------------------------------------------------------------------------------------------------------------------	----

<sup>a</sup>The papers in this volume were presented at a conference entitled Alcohol and the Cell, which was held by the New York Academy of Sciences and the National Institute on Alcohol Abuse and Alcoholism in Philadelphia, Pennsylvania on April 30 to May 2, 1986.

Lipid Polymorphism. <i>By C. P. S. TILCOCK and P. R. CULLIS</i> .....	88
Ethanol-Induced Adaptation in Biological Membranes. <i>By DORA B. GOLDSTEIN</i> .....	103
Partition of Ethanol and Other Amphiphilic Compounds Modulated by Chronic Alcoholism. <i>By HAGAI ROTTENBERG</i> .....	112
Effects of Ethanol on Membrane Order: Fluorescence Studies. <i>By R. ADRON HARRIS, RITA BURNETT, SUSAN MCQUILKIN, ANNE MCCLARD, and FRANCIS R. SIMON</i> .....	125

### Poster Papers

Membrane Adaptation to Chronic Ethanol in Man. <i>By ALAN C. SWANN, EDWARD L. REILLY, and JOHN E. OVERALL</i> .....	136
Effects of Alcohol and Halothane on the Structure and Function of Sarcoplasmic Reticulum. <i>By S. TSUYOSHI OHNISHI</i> .....	138
Ordering/Disordering Effects of Ethanol in Dipalmitoylphosphatidylcholine Liposomes. <i>By ROBERT J. HITZEMANN, CINDY GRAHAM-BRITTAIN, HAROLD E. SCHUELER, and GEORGE P. KREISHMAN</i> .....	142

### Part III. Effects of Ethanol on Biological Membranes: Chemical Studies

Effects of Altered Phospholipid Molecular Species on Erythrocyte Membranes. <i>By L. L. M. VAN DEENEN, F. A. KUYPERS, J. A. F. OP DEN KAMP, and B. ROELOFSEN</i> .....	145
Dihydropyridine-Sensitive $Ca^{2+}$ Channels and Inositol Phospholipid Metabolism in Ethanol Physical Dependence. <i>By M. J. HEDSPITH, C. H. BRENNAN, S. CHARLES, and J. M. LITTLETON</i> .....	156
Membrane Structural Alterations Caused by Chronic Ethanol Consumption: The Molecular Basis of Membrane Tolerance. <i>By THEODORE F. TARASCHI, JOHN S. ELLINGSON, and EMANUEL RUBIN</i> .....	171
The Effect of Chronic Ethanol Consumption on the Lipids in Liver Mitochondria. <i>By CAROL C. CUNNINGHAM and PRISCILLA I. SPACH</i> .....	181
Effects of Ethanol on Proteins of Mitochondrial Membranes. <i>By WILLIAM S. THAYER</i> .....	193

### Poster Papers

Phospholipase Activity Is Enhanced in Liver Microsomes from Chronic Alcoholic Rats. <i>By CELESTE L. PRYOR, CHRISTOPHER D. STUBBS, and EMANUEL RUBIN</i> .....	207
Chronic Ethanol Ingestion Decreases the Partitioning of Hydrophobic Molecules into Cell Membranes Due to an Alteration in the Phospholipids. <i>By YUSHENG NIE, CHRISTOPHER D. STUBBS, and EMANUEL RUBIN</i> .....	210

### Part IV. Effects of Ethanol on Transport and Protein Synthesis

Effects of Ethanol on Calcium Homeostasis in Rat Hepatocytes and Its Interaction with the Phosphoinositide-Dependent Pathway of Signal Transduction. <i>By JAN B. HOEK</i> .....	212
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

Effects of Ethanol on Rat Placental and Fetal Hepatocyte Transport of Amino Acids. <i>By GEORGE I. HENDERSON, DAVID W. HEITMAN, and STEVEN SCHENKER</i> .....	224
Effects of Ethanol on Protein Synthesis. <i>By MARCUS A. ROTHSCHILD, MURRAY ORATZ, and SIDNEY S. SCHREIBER</i> .....	233
<b>Poster Papers</b>	
Phorbol Esters Inhibit Ethanol-Induced Calcium Mobilization and Polyphosphoinositide Turnover in Isolated Hepatocytes. <i>By JAN B. HOEK, RAPHAEL RUBIN, and ANDREW P. THOMAS</i> .....	245
Ethanol-Induced Activation of Polyphosphoinositide Turnover in Rat Hepatocytes. <i>By RAPHAEL RUBIN and JAN B. HOEK</i> .....	248
Elevation of Inositol 1,4,5-Trisphosphate Levels after Acute Ethanol Treatment of Rat Hepatocytes. <i>By ANDREW P. THOMAS, JAN B. HOEK, and EMANUEL RUBIN</i> .....	250
Hepatic Protein Catabolism During Chronic Ethanol Administration. <i>By TERENCE M. DONOHUE, JR., JOHN M. PARR, MICHAEL F. SORRELL, DEAN J. TUMA, and ROWEN K. ZETTERMAN</i> .....	253
The Effect of Ethanol on Hepatic mRNA Regulation in Baboon and Man. <i>By MARK J. CZAJA, FRANCIS R. WEINER, MARIE-ADELE GIAMBRONE, MARIE A. LEO, CHARLES S. LIEBER, and MARK A. ZERN</i> .....	256
The Acute <i>In-Vitro</i> Effect of Ethanol and Acetaldehyde on Ion Flux in Isolated Human Leukocytes and Erythrocytes. <i>By RACHEL J. GREEN and D. N. BARON</i> .....	259
<b>Part V. Effects of Ethanol on Cell Organization and Function</b>	
Cytoskeletal Pathology Induced by Ethanol. <i>By S. W. FRENCH, Y. KATSUMA, M. B. RAY, and S. H. H. SWIERENGA</i> .....	262
The Interaction of Acetaldehyde with Tubulin. <i>By DEAN J. TUMA, RICHARD B. JENNITT, and MICHAEL F. SORRELL</i> .....	277
Effects of Ethanol on Endocrine Cells: Testicular Effects. <i>By DAVID H. VAN THIEL, JUDITH S. GAVALER, ELAINE ROSENBLUM, and PATRICIA K. EAGON</i> .....	287
Hypermetabolic State, Hepatocyte Expansion, and Liver Blood Flow: An Interaction Triad in Alcoholic Liver Injury. <i>By YEDY ISRAEL and HECTOR ORREGO</i> .....	303
<b>Poster Papers</b>	
The Effect of Ethanol on Superoxide Production in Alveolar Macrophages. <i>By RAYMOND J. DORIO, JAN B. HOEK, HENRY J. FORMAN, and EMANUEL RUBIN</i> .....	324
Ethanol Decreases Corticotropin-Releasing Factor Binding, Adenylate Cyclase Activity, Pro-Opiomelanocortin Biosynthesis, and $\beta$ -Endorphin Release in Cultured Pituitary Cells. <i>By JITENDRA R. DAVE and ROBERT L. ESKAY</i> .....	327
Implications of Alcohol-Induced Alterations in the Prostaglandin Profile of the Vascular System. <i>By JOHN W. KARANIAN, JAMES YERGEY, and NORMAN SALEM, JR.</i> .....	331

The Increased Vulnerability of Kidneys of Chronic Alcoholic Rats to the Insult of a Nephrotoxin. <i>By MASAAKI ISHIGAMI, S. TSUYOSHI OHNISHI, TEIRYO MAEDA, and SO YABUKI</i> .....	335
Functional Analysis of T Lymphocyte Subsets in Chronic Experimental Alcoholism in Rats. <i>By OMAR BAGASRA, ALY HOWEEDY, and ANDRE KAJDACSY-BALLA</i> .....	338
Electrophoretic Variants of Arylsulfatase A in Alcoholic Patients and Controls. <i>By PAUL MANOWITZ, LUANN VILLANO FINE, RENA NORA, KEVIN PERNICANO, PETER NATHAN, and SUDHANSU CHOKROVERTY</i> .....	341
Ethanol-Induced Cytoskeletal Dysgenesis in Developing Skeletal and Cardiac Myocytes. <i>By E. D. ADICKES and T. J. MOLLNER</i> .....	344
Mechanism for Ethanol-Induced Increase in Urinary Folate Excretion: Plasma Binding and Renal Clearance Studies. <i>By KENNETH E. McMARTIN, BERNARD H. EISENGA, and WILLIAM R. BATES</i> .....	347
<b>Part VI. Effects of Ethanol on Cells of the Nervous System</b>	
Electrophysiology of Ethanol on Central Neurons. <i>By G. R. SIGGINS, F. E. BLOOM, E. D. FRENCH, S. G. MADAMBA, J. MANCILLAS, Q. J. PITTMAN, and J. ROGERS</i> .....	350
Adaptation to Ethanol in Cultured Neural Cells and Human Lymphocytes from Alcoholics. <i>By ADRIENNE S. GORDON, BRADLEY WRUBEL, KATHLEEN COLLIER, WILLIAM ESTRIN, and IVAN DIAMOND</i> .....	367
The Influence of Catecholamine Systems and Thyroid Function on the Actions of Ethanol in Long-Sleep (LS) and Short-Sleep (SS) Mice. <i>By NORMAN WEINER, JEFFREY K. DISBROW, THOMAS A. FRENCH, and JOSEPH M. MASSERANO</i> .....	375
False Neurotransmitters and the Effects of Ethanol on the Brain. <i>By BRIAN R. SMITH and ZALMAN AMIT</i> .....	384
<b>Poster Papers</b>	
Ethanol Differentially Up-Regulates Functional Receptors in Cultured Neural Cells. <i>By MICHAEL E. CHARNESS and LISA A. QUERIMIT</i> .....	390
Effects of Alcohols on Voltage-Dependent Conductances in <i>Aplysia</i> Neurons. <i>By STEVEN N. TREISTMAN, PATRICIA CAMACHO-NASI, and ANDREW WILSON</i> .....	392
Selective Effects of Ethanol on Neurotransmitter Receptor-Effector Coupling Systems in Different Brain Areas. <i>By PAULA L. HOFFMAN, TOSHIKAZU SAITO, and BORIS TABAKOFF</i> .....	396
Genetic Variation in Ethanol Sensitivity in C57BL/6 and DBA/2 Mice: A Further Investigation of the Differences in Brain Catalase Activity. <i>By C. M. G. ARAGON and Z. AMIT</i> .....	398
Alteration of Na,K-ATPase Regulation by Ethanol and Noradrenergic Manipulations <i>In Vivo</i> . <i>By ALAN C. SWANN</i> .....	401
Ethanol Stimulates Protein Phosphorylation and Taurine Release from Astroglial Cells. <i>By W. SHAIN, V. MADELIAN, D. L. MARTIN, and S. SILLIMAN</i> .....	403

Tissue Formation and Enzyme Inhibitory Effects of Dopamine-Derived 3,4-Dihydroisoquinolines (DIQs): Possible Roles in Chronic Alcoholism. <i>By MICHAEL A. COLLINS, BHI Y. CHENG, and THOMAS C. ORIGITANO.....</i>	405
Morphometric Evidence for Modification of Purkinje Cell Response to Ethanol During Aging. <i>By ROBERTA J. PENTNEY and PATRICIA QUIGLEY .....</i>	407
Index of Contributors.....	411

**Major funding for this conference was provided by:**

- NATIONAL INSTITUTE ON ALCOHOL ABUSE AND ALCOHOLISM

**Financial assistance was received from:**

- ALCOHOLIC BEVERAGE MEDICAL RESEARCH FOUNDATION
- ELI LILLY AND COMPANY
- HAHNEMANN FOUNDATION OF PATHOLOGY AND  
LABORATORY MEDICINE
- OLYMPUS CORPORATION
- SANDOZ CORPORATION
- SMITHKLINE BIO-SCIENCE LABORATORIES

The New York Academy of Sciences believes it has a responsibility to provide an open forum for discussion of scientific questions. The positions taken by the participants in the reported conferences are their own and not necessarily those of the Academy. The Academy has no intent to influence legislation by providing such forums.
